CAREER OBJECTIVE

Aspiring AI and Machine Learning professional passionate about building impactful, real-world solutions using intelligent systems. Eager to apply strong problem-solving and Python skills, deepen expertise in machine learning and generative AI, and contribute to innovative projects while growing in a collaborative environment.

WORK EXPERIENCE

Generative AI Intern — Internship

Jun 2026 - Jul 2026

Lenovo LEAP NextGen Scholar Program (AICTE), Virtual

- Completed a 6-week AICTE internship in Generative AI & Agentic Systems Engineering under the Lenovo LEAP NextGen Scholar Program.
- Built and tested agentic AI workflows using prompt engineering and Generative AI concepts to automate multi-step task execution.
- Applied automation techniques to real-world AI use cases through guided, project-based learning, streamlining repetitive workflow steps.
- Strengthened Python and AI development skills through hands-on coding exercises and mini-projects completed during the program.

Digital Marketing — Internship

Jun 2023 - Jul 2023

VInnovate Technologies, Lonavla

- Leveraged LinkedIn for international B2B lead generation, identifying and engaging 50+ potential clients across target markets.
- Executed targeted outreach and engagement strategies to support client acquisition and strengthen global business development efforts.
- Collaborated with the marketing team to develop campaign ideas and improve client onboarding processes.
- Conducted market research and professional outreach to support lead generation and client communication.

EDUCATION

Bachelor of Engineering (B.E), Computer Science & Engineering

2024 - Present

Saraswati College Of Engineering, Kharghar

Semester 6 CGPA: 8.91

Diploma, Computer Science & Engineering

2021 - 2024

Government Polytechnic, Malvan

Percentage: 81.53%

Secondary (X), Maharashtra State Board of Secondary and Higher Secondary Education

2021

Auxilium Convent High School, Lonavla

Percentage: 79.40%

TRAININGS / CERTIFICATIONS

- NLP — Kamal Classes, Virtual (Jul 2026 - Present)
- SQL — Kamal Classes, Virtual (Jul 2026 - Present)
- Machine Learning — Kamal Classes, Virtual (Jul 2026 – Aug 2026)
- Python Developer — Kamal Classes, Thane (Jun 2026 - Jul 2026)

PROJECTS

SurplusShareAI – Intelligent Food Redistribution System Jul 2026
Python, CrewAI, Groq Llama 3.1, Geopy, Streamlit

- Developed an Agentic AI system using CrewAI and Groq Llama 3.1 to automate perishable food safety evaluation and real-time NGO matching.
- Integrated Geopy and the Haversine Algorithm to calculate geographical distance and dynamically rank shelter priorities for faster allocation decisions.
- Built an interactive Streamlit UI to display multi-agent decision logs, food handling reports, and automated allocation summaries.

SKILLS

Programming Languages: Python, Java, HTML
AI / ML: Artificial Intelligence, Machine Learning
Databases: MySQL

EXTRA CURRICULAR ACTIVITIES

- Volunteered as the Documentation Head for the CodeRoyale Hackathon, contributing to event planning, documentation, team coordination, and the successful execution of the department-level hackathon.
- Served as the Documentation Head of the Artificial Intelligence Student Association (AISA) during the third year of B.E. (CSE-AI & ML), managing event documentation, reports, and coordinating with the organizing team.
